Nothing happens when you press the shopping cart logo. This is happening when you are not logged in as a user.	When: You are not the user (not logged in) Then: You should not see the shopping card icon Example: Toni Terek is a visitor of SLP clicks on the shopping cart icon nothing happens.	Not working.	https://stage.sacret-life.com/en	https://prnt.sc/wd8f0q	29.12.2020.	
Chat button covers the "back to top" button. It looks bad and "back to top" is not working.	When: You want to want to go on the top of the page after scrolling down a bit. Then: You should be able to click the button, and not scroll all the way up to the start. Examples: Starts reading the website, scrolling a bit on the website after some time you want to check what was on top of the page, you can't click the "go to the top page" button because "chat button" is on the same position following the mouse scroll.	Not working.	https://stage.sacret-life.com/en	https://prnt.sc/wd9oho	29.12.2020.	
Over lapsing text, not sure why is this text on the website, one of the headlines should be deleted. This issue is repeating on the entire website	When: You are looking at the Services of the day, Events of the day, Videos of the day Then: The first words: Services, Events, Videos have the same words behind them, it looks like a website behind the website.	Looking bad	https://stage.sacret-life.com/en	https://prnt.sc/wd9ow2	29.12.2020.	
First text is one pixel above than the second one.	When: You scroll down on the footer of the website, and look at the "Sacret Life ©2020" and "All rights reserved" Then: You should see both text in the same line, not one above one below. Examples: "Sacret Life ©2020" is one pixel out of the line of "All rights reserved" text	Looking bad	https://stage.sacret-life.com/en	https://prnt.sc/wd9rlw	29.12.2020.	
Typed text should be a bit lighter and the instruction words in the pharagraph should be a bit darker in order to give the user a feeling what is written and what is next.	When: You tipe your first and last name in the registration form. Then: Your emai field looks like it's already filled and it's saying "email" Examples: You fill your first and last name, but you skip your email for some reason, you will never notice that untill you finish the registration.	Looking bad	https://stage.sacret-life.com/registration	https://prnt.sc/wd9tlk	29.12.2020.	
Wrong message, it should say. First name already exists. Because there is no field "Username" when you register.	When: You place your first and last name and register but there is already a person with the same name. Then: The application should say, that there is already a user with same first and last name, not username.	Confusing the user	https://stage.sacret-life.com/registration	https://prnt.sc/wd9w2k	29.12.2020.	
Blue text indicates that the text is clickable, in this case on the profile drop down. All blue texts are not clickable but we can see that on the footer of the website we have same likalike text that is clickable. We need to change the color of the text in the drop down menu.	When: The user opens a drop down menu next to his profile picture. Then: There is a text with blue color which looks like a link, it should be black or some other color. Examples: User opens a drop down, he/she can see the blue text, automatically tries to click on it because it looks like a link but isn't.	Confusing the user	https://stage.sacret-life.com/	https://prnt.sc/wda0hi	29.12.2020.	
These two icons should be on same size.	When: You look at the shopping cart and notification icons on the top right side of the page. Then: They look like they are not the same sizes	Looking bad	https://stage.sacret-life.com/	https://prnt.sc/wda3ih	29.12.2020.	
Why i have quantity when i purchased 2 and it's showing two same things with quantity of 1.	When: User selects let's say webinars in the shopping cart, but he/she clicks twice not selecting quantity 2. Then: In the shopping cart it's says that there are two same webinars but the both have quantity 1.	Confusing the user	https://stage.sacret-life.com/en/profile/my/purchased-items	https://prnt.sc/wdagym	30.12.2020.	
When i download invoice it's on serbian language even tho I was on english language on website.	When: When i download invoice it's on serbian language even tho I was on english language on website Then: The users get confuzed, because he/she don't understand that language	Confusing the user	https://stage.sacret-life.com/en/profile/my/purchased-items	https://prnt.sc/wdaikv	30.12.2020.

In resolution 768x1024 drop down menu does not work.	When: You open a website on the 768x1024 resolution, the drop down menus do not work. Then: You can't select any drop down menu option to open.	Not working.	https://stage.sacret-life.com/	https://prnt.sc/we9xrr	1.1.2020	
When the resolution is on mobile when you move your mouse from top to bottom if you hover your mouse over some drop down it automatically opens that drop down as a pop up and you need to go to the X to close it (but you didn't even open that drop down).	When: You open the mobile resolution and you hover over the menu, it opens automatically. Then: You can't move your mouse freely, it opens the menu everytime you move your mouse.	Not working.	https://stage.sacret-life.com/	https://prnt.sc/wea1gx	1.1.2020

Terms of use and privacy policy are not working when you press it. There should be a text instead that says 'all rights reserved' year 2021 and the brand name or company name.	When: Try to open the terms of use and privacy policy on the footer of the page. Then: The button doesn't react at all. It's just a text with no link.	Looking bad	https://stage.slaff.io/auth/dashboard	https://prnt.sc/wiy73x	5.1.2020	
Footer is too large for no reason it should be a bit smaller.	When: You scroll down the website, and go to the footer of the website. Then: You see that the footer is covering so much space for no reason.	Looking bad	https://stage.slaff.io/auth/dashboard	https://prnt.sc/wiy73x	5.1.2020	
Linked in text needs to be a button or something similar in order for user to know that he/she can click on it. It's not user friendly, only when you hover your mouse over the text you can maybe see that it's a link that opens the linked in profile.	When: You look at the linked in profile link you see that it's red color. Then: You are not sure if that is a link or a text., it could be blue color as that indicates that the text is a link.	Looking bad	https://stage.slaff.io/auth/dashboard	https://prnt.sc/wiynav	5.1.2020	
Blue logo should be on the tab not the sacret life color logo.	When: You open slaf.io website. Then: The tab of the website has SLP logo not slaf (blue logo)	Looking bad	https://stage.slaff.io/auth/dashboard	https://prnt.sc/wiypzn	5.1.2020	
Somebody placed a command on the website. It should be removed, it looks confusing.	When: You look at the Robert Leskovar pharagraph Then: You can see that there is some simbol at the end of the sentence.	Looking bad	https://stage.slaff.io/auth/dashboard	https://prnt.sc/wizji0	8.1.2020	
Maybe we should use the slaff.io LinkedIn in profile not the sacret life on the social media icon for LinkedIn. I found this page for slaff.io https://www.linkedin.com/showcase/slaff-io/ .	When: You open the linked in icon on the footer of the slaf.io Then: The link forwards you to the SLP linked in page not slaf.io linked in page	Confusing the user	https://stage.slaff.io/auth/dashboard	https://prnt.sc/wizslx	8.1.2020	
Product icon not working.	When: User registers into the slaf.io application and goes to the Products page. Then: The images are not working on this page.	Not working.	https://stage.slaff.io/products	https://prnt.sc/wj2wtl	8.1.2020	
When you hover your pointer over the sacret life logo it's showing the code for no reason.	When: The registered user hovers over the slaf.io logo icon on the all transations menu. Then: Some weird number appears, which can be confusing to the user.	Confusing the user	https://stage.slaff.io/transactions	https://prnt.sc/wj4u55	8.1.2020
